### **GOLD MEN TRIUMPH** IN TODAY'S WORK

PROPOSITION FOR "COIN" PAY. MENT VOTED DOWN.

House Banking Committee Against the Retiring of Greenbacks But Favorable to the Withdrawal of Treasury Notes-Full Text of Cleveland's Message.

WASHINGTON, Jan. 29.—The house banking committee today decided against retiring greenbacks from circulation, but declared itself to be favorable to the retiring of treasury notes. The senate committee reached no conclusion during the morning. Gold men won a victory in the house committee by voting down the proposition to substitute the word "coin" for "gold" in the bond paragraph. The substitute would have of the government. There need be been a long step toward free silver. Cleveland's message on the bend subject has aroused much criticism. The full text is as follows:

"TO THE SENATE AND HOUSE OF REPRESENTATIVES: In my last annual message I commended to the serious consideration of congress the condition of our national finances, and in connection with the subject indorsed the plan of currency legislation which at that time seemed to furnish protection against impending danger. This plan has not been approved by the congress. In the meantime the situation has so changed that the emergency now appears so threatening that I deem it my duty to ask at the hands of the legislative government such prompt and effective action as will restore confidence in our financial soundness and avert business disaster and universal distress among our people. Whatever be the merits of the plan outlined in my annual message as a remedy for ills then existing and as a safeguard against the depletion of the gold reserve then in the treasury, I am now convinced that its reception by the congress and our present advanced stage of financial perplexity necessitate additional or different legislation. With natural resources unlimited in variety and productive strength, and with a people whose activity and enterprise seek only a fair opportunity to achieve national success and greatness, our progress should not be checked by a false financial policy and a heedless disregard of sound monetary laws, nor should the timidity and fear which they engender stand in the way of our prosperity.

"The real trouble which confronts us consists in a lack of confidence, wide spread and constantly increasing, in the contin ing ability or disposition of the government to pay its obligations in gold. This lack of confidence grows to some extent out of the palpable and apparent embarrassment attending the efforts of the government under existing laws to procure gold, and to a greater extent out of the impossibility of either keeping it in the treasury or cancelling obligations by its expenditure after it is ob-

"The only way left open to the government for procuring gold is by the issue and sale of bonds. The only bonds that can be so issued were authorized nearly twenty-five years ago and are not well calculated to meet our present needs. Among other disadvantages, they are made payable in coin instead of specifically in gold, which, in existing conditions, detracts largely and in an increasing ratio from their desirability as investments. It is by no means certain that bonds of this description can much longer be disposed of at any price creditable to the financial character of our government.

"The most dangerous and irritating feature of the situation, however, remains to be mentioned. It is found in the means by which the treasury is despoiled of the gold thus obtained without canceling a single obligation, and solely for the benefit of those who find profit in shipping it abroad or whose fears induce them to hoard it at home. We have outstanding about five hundred millions of currency notes of the government for which gold may be demanded; and, curiously enough, the law requires that when presented, and, in fact, redeemed and paid in gold, they shall be reissued. Thus the same notes may do duty many times in drawing gold from the treasury; nor can the process be arrested as long as private parties, for profit or otherwise, see an advantage in repeating the operation.

"More than three hundred millions of dollars in these notes have already been redeemed in gold, and notwithstanding such redemption they are all still outstanding. Since the 17th day of January, 1894, our bonded interest bearing debt has been increased \$100,000,000 for the purpose of obtaining gold to replenish our coin reserve. Two issues were made, amounting to \$50,000,000 eachone in January and the other in November. As a result of the first issue there was realized something more than \$58,000,000 of dollars in gold. Between that issue and the exceeding one in November, comprising a period of about ten months, nearly \$103,000,-000 of dollars in gold was drawn from the treasury. This made the second issue necessary, and upon that more than \$58,000,000 in gold was again realized. Between the date of this second issue and the present time, covering a period of only about two months, more than \$69,000,000 in gold. has been drawn from the treasury.

These large sums of gold were ex-

pended without any cancellation of WRECK VICTIM DIES government obligations, or in any permanent way benefiting our people or improving our pecuniary situation.

"Our gold reserve has again reached such a state of diminution as to require its speedy reinforcement. The aggravations that must inevitably follow present conditions and methods will certainly lead to misfortune and loss, not only to our national credit and prosperity, and to financial enterprise, but to those of our people who seek employment as a means of livelihood and to those whose only capital is their daily labor.

It will hardly do to say that a simple increase of revenue will cure our troubles. The apprehension now existing and constantly increasing as to our financial ability does not rest upon a calculation of our revenue. The time has passed when the eyes of in vestors abroad and our people at home were fixed upon the revenues of the governmnt. Changed conditions have attracted their attention to the gold no fear that we can not pay our current expenses with such money as we

"Besides the treasury notes, which certainly should be paid in gold amounting to nearly \$500,000,000, there will be due in 1904 \$100,000,000 of bonds issued during the last year, for which we have received gold, and in 1907 nearly \$600,000,000 of 4 per cent bonds issued in 1877. Shall the payment of these obligations in gold be repudiated? If they are to be paid in such a manner as the preservation of our national honor and national solvency demands we should not destroy or even imperil our ability to supply ourselves with gold for that purpose.

"In my opinion, the secretary of the treasury should be authorized to issue bonds of the government for the purpose of procuring and maintaining a sufficient gold reserve and the redemption and cancellation of the United States legal tender notes and the treasury notes issued for the purchase of silver under the law of July 14, 1890.

"I suggest that the bonds be issued in denominations of \$20 and \$50 and their multiples, and that they bear interest at a rate not exceeding 3 per cent per annum. I do not see why they should not be payable fifty years from their dates. We, of the present generation have large amounts to pay if we meet our obligations and long bonds are most salable. The secretary of the treasury might well be permitted at his discretion to receive on the sale of bonds the legal tender and treasury notes to be retired and, of course, when they are thus retired or redeemed in gold they should be can-

"These bonds, under existing laws, could be deposited by national banks as security for circulation, and such banks should be allowed to issue circulation up to the face value of these or any other bonds so deposited, except bonds outstanding bearing only per cent interest and which sell in the market at less than par. National banks should not be allowed to take out circulating notes of a less denomination than \$10, and when such as are now outstanding reach the treasury, except for redemp tion and retirement, they should be canceled and notes of the denomination of \$10 and upward issued in their stead. Silver certificates of the denomination of \$10 and upward should be replaced by certificates of denom inations under \$10.

Objection has been made to the issu ance of interest bearing obligations for the purpose of retiring the noninterest bearing legal tender notes. In point of fact, however, these notes have burdened us with a large load of interest and it is still accumulating. The aggregate interest on the original issue of bonds, the proceeds of which in gold constituted the reserve for the payment of these notes, amounted to \$70,326,250 on Jan. 1, 1895, and the annual charge for interest on these bonds and on those issued for the same purpose during the last year will

be \$9,145,000, dating from Jan. 1, 1895. "In conclusion I desire to frankly confess my reluctance to issuing more bonds in present circumstances and with no better results than have lately followed that course. I can not, however, refrain from adding to an assurance of my anxiety to co-operate with the present congress in any reasonable measure of relief an expression of my determination to leave nothing undone which furnishes a hope for improving the situation or checking a suspicion of our disinclination or disability to meet with the strictest honor every national obligation.

"GROVER CLEVELAND. "Executive Mansion, Jan. 28, 1895."

Most of the gold money congressmen talked with expressed the highest satisfaction at the general tone of the President's message. Outside of the question of the issuing of bonds and retiring the greenbacks they say the message is certain to have an admirable effect in restoring confidence at home and abroad. It is generally understood that the President, while he did not mention it in his message, is willing to agree to the coinage of the seigniorage, or at least the use of that as the basis for silver certificates. The situation is likely to be about this: A bill for five hundred millions of 3 per cent bonds; the retirement of the greenbacks gradually; the substitution therefor of national bank notes issued to the par value of the bonds, the retirement of small bank notes below \$10; the substitution for them of silver certificates, and the use of the

Important arrangements concerning the settlement of the estate are pending and great confusion will result unless the will is found. May Complete Hayward Jary To-day.

MINNEAPOLIS. Minn., Jan. 29.—Harry Hayward's trial for murder started its second week with the same stereotyped quizzing of candidates for jury honors. Only one juror, making the Union as to the actions of the men tenth, was secured. There are rumors that another one of the accepted jurors has been found to be a friend of Hayward's and will be dismissed. County Attorney Nye announces that even though the last juror be not secured until noon, he will at once proceed with his address on the reopening of court. It seems probable Mr. Erwin will begin the defense's statement to-morrow morning.

> WAR TALK HAS BEEN REVIVED Action of the Mexican Government in Re gard to Arbitration Starts It.

CITY OF MEXICO, Jan. 29. - War talk has received a fresh impetus by the action of the government in declining the offer of the United States to mediate. There now appears little doubt that Guatemala must either eat very humble pie or fight, and its decision must be made at once. The Fourth battalion of infantry is making preparations to move from this city, its objective point being Acapulco, on the Pacific coast, where it will be held with the other forces now there for transportation by sea when Guatemalan invasion is ordered.

Francios Verona Muras, the Cuban journalist, who made such a vigorous attack upon Mexico in connection minister by Gen. Diaz, is supposed to have left Vera Cruz yesterday by steamer for Havana. Several influential newspaper men of this capital petitioned Don Romero Rubino, secretary of state, asking official action against Muras. Getting wind of the matter he quietly left town, without fighting any of the numerous duels which he had returned to partici pate in.

The court room was pretty well filled during the session, several ladies being among the spectators.

In the afternoon a vital point was reached and during the discussion the court took an adjournment until this morning, when the arguments will be resumed. The issue is on the extent to which the government can go in adducing testimony from the witnesses and the responsibility of the board of directors of the American Railway under them who exceeded their instructions. On the settlement of this question depends whether the government can prove conspiracy.

Evidence That the Chicora's Crew Was Well Warned.

BENTON HARBOR, Mich., Jan. 29.-Work in searching for bodies or wreckage from the Chicora has been out of the question since Friday, owing to heavy storms all along the shores. Telegrams received here show that the sailors had some warning of their fate before it reached them, and they had used means to defend themselves, if possible, as two of the boats masts, which had been chopped from the deck, have been found. It is thought probable the Chicora went down fully twenty miles farther north than was at first considered, from the fact that this wreckage is beyond the first findings. SPRINGER PRESENTS HIS BILL

After a Short Debate It Is Sent to the Banking Committee.

Washington, Jan. 29.—There was a good attendance on the floor when the house met yesterday in anticipation of the President's message. When the reading of the message was concluded there was a round of applause from the democratic side, in which quite a number of republicans joined.

Mr. Springer, chairman of the committee on banking and currency, forthwith sent to the clerk's desk a currency bill, stating he would move the reference of the bill and message to his committee. The bill incorporates the views of the President as expressed in his special message. It also restricts national bank notes to \$10 and provides that duties shall be paid in gold. By its provisions greenbacks will be retired upon presentation for redemp-

Mr. Livingston (dem., Ga.) moved that the message be referred to the committee of the whole on the state of the Union for immediate consideration. FORMER JANESVILLE PASTOR STIRS UP A DISCUSSION.

Denounces Milwaukee's Charity Ball In Unmeasured Terms Before the Milwaukee Ministerial Association and Suggests that Dancing is the Devil's Pastime.

Rev. Dr. E. L. Eaton stirred up a hornets nes't at the meeting of the Milwaukee Ministerial Association yesterday. The charity ball which was given recently in that city was his theme and he described the affair as the most fantastic aggregation that could be getten together. "Gamblers, bummers and drunkards, bawdyhouse keepers and patrons, catholics and prosestants, Jews and Gentiles, were on hand," he said. "The millionaire and the deadbeat, the rum seller and rake, were there, and for once the word 'society, had a revised signifi-

"I learned that among the hundreds of ladies who danced there was scacely one whose dress was truly modest; most of them were shamefully nude about the neck and shoulders and some of them actually elicited expressions of shame and disgust from the spectators in the boxes.

"By special permission the room oc cupied by the Woman's Relief Corps of the G. A. R., was permitted to be used for the serving of ice cream, but after the ball, champagne corks covered the floor, and the filth, disorder

A Stupendous Farce.

"This charity ball was a brilliant financial succeess. It netted \$2,000. There were present 500 ladies dressed in the height of fashion, and the average cost of the toilets was \$50. To be safe I have supposed that the average would be at least \$20-\$10,000five times as much as poor charity got. For the 500 men who were present to give \$5 apiece to charity would be the Christ like way to do good. In the name of benevolence this stupendous farce invades every church in the city and slimes over and compromises hundreds of so-called christians, and the minister who lifts up his voice against the satanic device will be sure to be called a fanatic and a bigot.

After referring to the danger of dancing to the health he continued. The Whirling Hug.

"The warm embrace and the whirling hug of the waltz are utterly excused and condoned by the man who dance very soon come to have small If to all this is added that almost universal accessory of wine and beer drinking and carousal, you have all the conditions for man's moral over-

Argument Followed.

This provoked a discussion. Rev. Judson Tittsworth, of Plymouth church, said he could not vote for the resolution, as he did not accord with the views of Dr. Eaton. He said that dancing of itself is not sinful, and that the association would discredit itself among the people by saying so.

Rev. Herman Burns backed Dr. Eaton up as did all but Rev. Mr. Huntsberger, who succeeded Rev. Dr. Halsey at the Grand Avenue M. E. church. Other ministers spoke pro and con, and during a lull in the discussion. Rev. Eaton declared that the time had come to smite the devil on the head. He had not suggested any plan of work for supplanting the dance by other pleasures, he said, because the people who indulge in the waltz are not within the reach of the church. The resolution was withdrawn.

Poor Indeed!

The prospect of releif from drastic cathartics for persons troubled with constipation is poor indeed. True they act upon the bewels, but this they do with violence, and their operation tends to weaken the intestines, and is prejudicial to the stomach. Hostetter's Stomach Bitters is an effectual laxative, but it neither gripes nor enfeebles. Furthermore, it promotes digestion and a regular action of the liver and the kidneys. It is an efficient barrier against and remedy for malarial com plaints and rheumatism, and is of great benefit to the weak, nervous and aged. As a medicinal stimulant it cannot be surpassed. Physicians cordially recommend it, and its professional endorsement is fully borne out by popular experi-ence. Appetite and sleep are both improved by this agreeable invigorant and alternative.

on. It was in him only a momentary triumph of pessimism. There is ever and anon, and never more than now, a disposition abroad to distrust everybody, and because some bank employes defraud, to distrust all bank employes; and because some police officers have taken bribes, to believe that all policemen take bribes; and because divorce cases are in the court, to believe that most, if not all, marriage relations are unhappy. There are men who seem rapidly coming to adopt this creed: All men are liars, scoundrels, thieves, libertines. When a new case of perfidy comes to the surface, these people clap their hands in glee. It gives piquancy to their breakfast if the morning newspaper discloses a new exposproved innocent, it is to them a disappointment. They would rather beto be on a committee to find something wrong. They wish that as eyeglasses have been invented to improve the sight, and ear trumpets have been invented to help the hearing, a corresponding instrument might be inmalodor. for pauperism and assassination. Although we are not very jubilant over a municipal reform that opens the exercises by a doxology to rum, we have full faith in God, and in the gospel, which will yet sink all iniquity as the Atlantic ocean melts a flake of snow. What we want, and what I believe we will have. is a great religious awakening that will moralize and Christianize our great populations, and make them superior to temptations, whether unlawful or legalized. So I see no cause for disheartenment. Pessimism is a sin, and those who yield to it cripple themselves for the war, on one side of which are all the forces of darkness, led on by Apollyon, and on the other side of which are all the forces of light, led on by the Omnipotent. I risk the statement that the vast majority of people are doing the best they can. Nine hundred and ninety-nine out of a thousand of the officials of the municipal and the United States governments are honest. Out of a thousand bank presidents and cashiers, nine hundred and ninety-nine are worthy position they occupy. Out of a thousand merchants, mechanics and professional men, nine hundred and ninety-nine are doing their duty as they understand it. Out of one thousand engineers, and conductors, and switchmen, nine hundred and ninetynine are true to their responsible positions. It is seldom that people arrive at positions of responsibility until they have been tested over and over again. If the theory of the pessimist were accurate, society would long ago have gone to

I know from the illumination the banks of the Hudson, or the Rhine. It is a mean thing in human nature that men and women are not praised for doing well, but only excoriated when they do wrong. By divine ar-rangement the most of the families of the earth are at peace, and the most of of her children, some of them on those united in marriage have for each other affinity and affection. They may have occasional differences, and here and there a season of pout, but the vast majority of those in the conjugal relation, chose the most appropriate companionship, and are happy in that relation. You hear nothing of the quietude and happiness of such homes, though nothing but death will them part. But one sound of marital discord makes the ears of a continent, and perhaps of a hemisphere, alert. The one letter that ought never to have been written, printed in a newspaper, makes more talk than the millions of letters that crowd the postoffices, and weigh down the mail carriers, with expressions of honest love. Tolstoi, the great Russian author, is wrong when he prints a book for the depreciation of marriage. Then there is the wedding hour, and the neighbors in, and the promise of "I will," and the departure from the old homestead. Then a scene of hard times, and scant bread, and struggle. Then she thinks of a few years with gush of sunshine, and flittings of dark shadows, and vicissitudes. Then she kneels down slowly, for many years have stiffened the joints, and the illnesses of a lifetime have made her less supple. Her prayer is a mixture of thanks for sustaining grace during all those years; the wandering boy, whom she hopes language how much she loves him, and trusts him, and hopes to see him soon, I hear her pronounce the quiet "Amen," and she rises up-a little more difficult effort than kneeling down. And then she puts her head on the pillow for the night, and the angels of safety and peace stand sentinel about that couch in the farm house; and her face ever and anon shows signs of dreams about grandchildren also notice that grandseems right. The spectacles and Bible white hair on the white pillow case like snow on snow already fallen. But her soul has gone up to look upon the things that the night before she had been reading of in the scriptures. What a transporting look on her dear old wrinkled face! She has seen the "King in his beauty." She has been welcomed by the "Lamb who was slain." And her two eldest sons having hurried up stairs, look and whisper, Henry to George, "That is religion!" and George to Henry, "Yes, that is re-

The national convertion of manufacturers at Cincinnatti, which was largely attended by men thoroughly representative of the great manufacuring industry of the country, unqualifiedly declared in favor of reciprocity. "The principle of reciprocity," says one of the resolutions adopted by the jected. convention, "should be embodied in the national legislation in accordance with the requirements of equity, so that reciprocal trade relations between the United States and foreign countries may be developed." This unquestionably voices the sentiment of all the manufacturers in the country fitting clothes, says a writer in Anwho produce goods for which there is a foreign market, and it is also the sentiment of a very large number of the agricultural producers of the country, whose interest and welfare reciprocity was primarily intended to serve. When Mr. Blaine said of the McKinley bill, as it went I fancy, however, that the young lady to the senate, that it did not provide had no great regard for her country a foreign market for a single addi- squire. According to the figures of the bureau of statistics the exports of the United States to Cuba have fallen off more than one-half since the termi nation of reciprocity, and if the high harmony with all ideas of comfort, tariff rates which discriminate and might give the shivers to sympaagainst this country are maintained export trade must still further decline. What is true of Cuba is measurably so of every country with which we had reciprocity arrangements. Brazil restored the former tariff on our products, as have most if not all the other countries, and what was our advantage is turned in favor of our commercial rivals. Even Canada is given more favorable consideration by Spain in connection with the Cuban trade than is accorded to the United States. Perhaps this discrimination will not be permanent, but no new agreement which we are likely of this popular dry goods house of alto be able to make will restore the advantages secured under reciprocity.

It will be among the first duties of the republican party when it returns to power to restore the policy which is necessary to the extension of our foreign commerce, particularly in this hemisphere, and without which we cannot hope to successfully compete with our strongly intrenched commercial rivals, If we are ever to have our share of the South and Central Ameri- to 6 Nest Milwaukee to have their can market it must be obtained by plumbing, gas and steam fitting, etc., means of reciprocity treaties and done. agreements which will secure to us special advantages. It will in the senate meet with the violent opposition of the silver men, who will fight all legislation which is not in harmony with their idea of the recognition to which they think silver is entitled. The state bank men and silver men in the house will make a fight, but the rules of that body will allow the administration, backed by some republican votes, to carry the measure through. The same thing will not be true in the senate, and this being the case the prospects of an extra session seem now more clear than ever before.

The general sentiment is that the bill introduced by Mr. Springer, which was drawn up at the treasury department and undoubtedly represents the President's views, will pass the house at the present session, possibly with some amendment, but it is hardly probably it can get through the senate | cago Board of Trade to-day: owing to the presence in that body of a belligerent majority for silver.

Bitter Speeches Against Germany. WASHINGTON, Jan. 29.—The house proceeded in committee of the whole with the consideration of the bill to repeal the differential duty imposed by the tariff bill on sugars from bounty paying countries. Mr. Hopkins (rep.. Ill.) and Mr. Dolliver (rep., Iowa) both spoke in determined opposition to the bill, Mr. Dolliver's speech in particular being most bitter. Mr. Wilson tried to effect an agreement to close the debate after two hours of discussion to-day, but Mr. Grosvenor (rep., Ohio) ob-

"One of the most difficult habits to many women drink vinegar for the complexion, and in some cases it creates a craving for it even more insatiable than that for liquor. As the habit grows the victim is no longer little dilution. It burns out the the stomach within a very few years, and it is seldom that a vinegar fiend lives even until middle age. It can be detected by the peculiar pallor of the

### Statues Feel Cold.

The question whether a figure which is to surmount a public monument shall be nude or draped is the subject of a very spirited debate in the state of Iowa. Strange to say, the weather statue may be all right in a warm southern clime, it is quite inappropriate to a high, chilly latitude like that of northern Iowa. Hence the statue should be draped, because its exposure to inclement weather would be out of thetic beholders.

The old fashioned far cape, known as the Victorine, is again coming into favor. The ends cover the front of the waist and extend nearly to the foot of the skirt.

### Spring Attractions Are Coming.

The beginning of February spring goods will arrive and every day during the month will see something new being unpacked and placed on the counters. In dress goods, wash goods, white goods, embroideries, laces, muslin underwear, hosiery, etc., the advance invoices show liberal shipments being made. The reputation ways being first with a low price will be maintained in every way, and dry goods buyers will serve their best interests in doing their spring trading Toilors and Outfitters. Former Janesville Divine Pulled Over the Coals Vigorously by the Sentinel-Christian Wahl Suggests That Only the Impure Minded Could Find Such Horrors.

"If Dr. Eaton can see anything wrong in the charity ball it must be owing to his own depraved heart," said Christian Wahl of Milwaukee. Mr. Wahl was severe in speaking of the former Janesville pastors paper on dancing. The Milwaukee Sentinel takes the same stand editorially and "The serious defect in Dr. Eaton's

#### PARISIAN NOTES.

#### Styles In Shoes—A Fetching Neck Arrangement--Pink the Favorite Color.

High heels are supposed to be characteristically French, but the latest Parisian models of shoes show an immense broad, flat heel, next door to the spring heel style. The toe is narrow, but not pointed, and the Inish exceedingly plain. They have a patent leather vamp or are galoched, as it is called, with patent leather, which means that the latter runs around the back of

eant than it may appear, especially as these little muffs are often made at home. The body of the muff is of ordinary muslin, properly shaped and stuffed with down. This is covered with the desired material and lined with silk. The trimming consists of lace, flowers, feathers, ribbon, fur or passementerie, according to the gown with which it is to be worn.

Women who possess an ostrich feather boa just long enough to go around the neck may bring it up to date by adding on each side of the front a chou of mousseline de soie, from which falls a short accordion plaited scarf of the same material.

In Parisian society there are no old maids, mainly because almost every girl marries young. If any fail to find a husband, which happens rarely, they vanish out of sight. Unmarried women over 30 are scarcely known or heard of in Paris.

Bonnets for little children are of a decided poke shape, with a wide brim coming well down over the ears, a desirable feature in winter weather. The trimming usually consists of ribbon and a cluster of ostrich tips.

NEW BODICES.

#### Those of Challie Are Decorated With Artificial Flowers and Lace.

The fashion of having the bodice of quite a different material from the skirt, which has been for some time in vogue for the more elaborate styles of afternoon costume, still enjoys undiminished favor. The skirt may be black, white or colored, while the bodice forms a complete contrast to it. A black lace skirt, for instance, may be furnished with several different corsages-a square one for informal dinners at which full dress would be unneces-

sary, one or two low ones of different colors and materials and a smart jacket for theater use. Some of the contrasts obtained by having the skirt and bodice different in color are very vivid. A gray crape is worn with a bright magenta satin, and a lively mauve in the bodice is used with a pink bengaline skirt. Sometimes three separate colors are introduced. Bodices of crape, chiffon and similar soft, thin goods are still worn for demitoilet and are made with draped, half length sleeves. They are usually trimmed with bows and bands of ribbon or velvet, which also forms the wrinkled collar. Less expensive ones are made of challie, having a small floral design, flowers of the same kind as those in the pattern being employed as a decoration, mingled with lace. These flower trimmings are not very economical for general use, as they lose their freshness very quickly, if not quite as soon as real blossoms.

A black satin or brocade skirt is a good investment now, as it may serve for all clerk of said court for the unpaid AT dress occasions. M. Grevy Was Tender Hearted.

Some one has taken the trouble to draw up a list of condemnations to death in France and their results since 1865 in order to show the different ways in which successive rulers have exercised the prerogative of mercy. Under the second empire, from 1865 to 1870, there were 193 condemnations and 85 commutations, or 44 per cent; under MacMahon, from 1873 to 1878, 179 condemnations and 112 commutations, or 62 per cent; under M. Grevy, from 1878 to 1886, 211 condemnations and 168 commutations, or 85 per cent.
M. Grevy, it will be seen, was most merciful and next to him Marshal Mac-Mahon, who, although an old soldier, had great difficulty, it is said, in turning of condemned men. - London News

### A NARROW ESCAPE!

How it Happened.

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called nemedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband hought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130%. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. ### TO ISSUE THE BONDS UNLESS THEY ACT

CONGRESS MUST DO SOME-THING VERY QUICK.

One Hundred Million Dollars Worth of Gold Four Percent Securities Will Be Issued Inside of Forty Fight Hours Unless Congress Does Some-

WASHINGTON, Jan. 30-Assistant Secretary of the Treasury Curtis went to New York this morning and said that Secretary Carlisle would go his afternoon. If congress does not act in forty-eight hours one hundred million dollars in gold four per cent bonds will be issued. The currency question was much talked of yesterday.

in the course of the discussion Representative Walker (rep., Mass.) opposed the proposition of a fifty year year term for the bonds, and gave notice that he would offer an amendment for a shorter term. Other republicans stood with him on this objection, and also gave it as their views that greenbacks should not be retired unless the circulation was kept to its present volume by replacing the retired greenbacks with national bank notes.

The committee adopted an amendmeut, which was practically a compromise between two proposed by Representatives Brosius and Haugen, striking out the words "fifty years after date" and making the bonds "payable at the pleasure of the United States after ten years from the date of issue." The proposal to shorten the had been made evident it would be imbond term met with nearly unanimous possible to accomplish anything in the approval.

Two other amendments to the bill were adopted. The first, proposed by SUGAR DISCRIMINATION BILL PASSES Haugen (rep., Wis.) reduces the tax upon the circulation from 1 per cent per annum to one fourth of 1 per cent, payable semi-annually. The second, proposed by Walker (rep., Mass.) strikes out the fifth section of the bill gratification at the way in which the -that requiring import duties to be bill to repeal the discriminating duty paid in gold. The vote upon it was 6 on sugar was pushed through the yeas, 4 nays.

When the committee adjourned two passed by the overwhelming vote of amendments were pending to be acted upon to-day. One, offered by Mr. Russell (rep.) stipulates that the retirement and cancellation of legal tenders for each month shall not be greater than the increase in amount of national bank notes under the operation of the plan. Representative Walker stands sponsor for the other pending amendment, which is to require one half of the reserve funds of the banks to be held in gold coin or gold certificates, the other half in silver coin or silver certificates. Ten per cent of the reserve is to be held in this stipulated form July 1, 1895; 20 per cent at the end of three months; the change being made at the rate of 10 per cent a quarter until completed. The discussion upon this amondment hinged on the point whether forcing the banks to some gold for deposits would not sause a greater domand upon the treasury for gold than the mids which nee now in propress.

Chairman springer says the committest will be acted to aspend the amonited will to the homogetening. This is not cortain, but the bill is a privileged one and one be suited up at any time. How far the amordments will placate the apposition assuming to be seen, that it is conceiled the observes of the moscore are much believ in the house than in the senate. Mr. Depew was firm in the opinion that there was no way in which the constitutional objection could be overcome so as to allow the legislators to either travel on passes or to accept a certificate equal to a pass from the secretary of state. With Speaker Fish he decided that the only way to prevent a legislator from having to spend the larger part of his salary for railroad fare was to have a bill passed allowing the members mileage. He said that the railroads were willing to aid in the matter by honoring the mileage certificates of members when signed by the comptroller, so that the state will lose nothing by the operation. ### A WISE JUNK DEALER **GOT JOHNSON A WIFE**

THE ROMANCE OF A UNION FARMER'S WEDDING

Rockford Second Hand Store Keeper County Farmer Was Spliced in a Hurry Although He Had Never Seen going to be married." Mrs. Eylward Before.

Some days ago The Gazette published an item that read like this. "William Johnson of Union and Mrs. Phoebe Eylward of Rockford, were married at Beloit by Rev. A. W. Runyan."

Thereby hangs a tale and at Rockford they tell it in this way.

"Several weeks ago Charles Rundle, who is associated with Mayor Hutchins in the monument business, and spends much of his time out on the road in the interests of the firm, was at Union, Wis., and met William Johnson, a wealthy old farmer, to whom he sold a tombstone for his first wife's grave. The old gentleman was living alone on a big farm and very much in need of a housekeeper. He broached the matter to Mr. Rundle, with the inquiry as to whether he knew where he could find a woman to run the house for him and who would not object to being his bride a little later on. Rundle told him that Rockford supplied the world with nearly everything from a match to a piano and he had no doubt but that he could do something for him in the line of a bride. When Mr. Rundle got home he met Superintendent Little of the water works, who is something of a joker himself, and told him of the strange request he had had from the old man up in the Badger state. Visited a Promoter.

"Superintendent Little at once thought of J. W. Folgate, the secondhand goods man at 213 South Main street, who keeps everything in stock imaginable, which he offers at a discount and has a sign outside that

There is no doubt about that, for, to use the Star's own hold any views on that subject language, "when you see it in the Star it is so," but the fire; well, that's another story. Funny, isn't it, that the Janesville opera house burned on Thursday night and no one in town knew it until to-day. The Star is a mighty good newspaper; one that will match up with any sheet in Illinois outside of Chicago, but they were a little too enterprising this time, for Janesville still has her two opera houses intact. This may be a pretty slow town but the residents all know enough to pull a box or yell "fire" when they see a building ablaze, and the oldest inhabitant cannot remember the time that the opera house burned without any one this side of Rockford knowing it. Somebody lied to the Star; they didn't do it maliciously for:

Dr. E. L. Eaton must have been looking for trouble when he attacked charity balls. He got it. War in three languages now prevalls.

It takes two scare heads and a leading editorial to relieve the Sentinel's feelings today.

"A Satanic Success." "Dr. Eaton Condemned."

These are two of the headlines. The introduction to a two-column string of interviews scoring the paster reads as follows:

"The resentment and indignation which Rev. Dr. E. L. Eaton has awakened by his wholesale attack on the character of the ladies and gentlemen who attended the charity ball continue to grow. If the Methodist preacher had confined his remarks at the ministers' association meeting to a denunciation of the dance, no one would have deemed it necessary or worth while to dispute his right to COURSE OF MISSIONARY LECTURES be thought fit and proper. But when the reverend gentleman went so far as to assail the personal character and morality of those who attended the ball, he evidently overstepped the bounds not only of good taste but also of decency and truth. When he declared that gamblers, bummers, drunkards and people of even worse character were present he stated what was absolutely untrue. Even his fellow ministers do not seek to uphold his loose charges and the ladies and gentlemen who were present think the best he can do would be to offer a public apology for making such

Mrs. James Clinton Spencer said of Dr. Eatou's paper:

"It was most unjust, most untrue, most uncharitable, most uncalled for and altogether beneath contempt."

Mrs. Frank L. Vance said: "I think the conversation at the Monday meeting of the ministers was more indecent than anything that happened at the Charity ball."

Presiding Elder Creighton, a brother Methodist and in charge of the Milwankee district, defended Dr. Eaton. He insisted that dancing cannot be commended. In conclusion he said: "Dr. Eaton is a care ul man in his statements, and a charitable man withal, but he and everyone should be very exact when they attempt to

Free Talks Will He Given By Up to Date Speakers.

The local union of Christian Endeavor and Epworth Leagues has made arrangements to take up the "Missionary Extension" course of lectures. This course has created much enthusiasm for missions where of five lectures upon popular missionary themes, each delivered by a missionary worker of wide reputation.

As aids to this lecture each paster will preach a missionary sermon on the Sunday prior to or next following the lecture and each Young People's society will hold a missionary meeting DR. E. E. LOOMIS AGAIN CHOSEN some time during the month. The lecture is not a sermon but it is a wide awake address delivered by a speaker who is thoroughly informed on the

The first lecture in the course will be given February 6, by Dr. C. F. "If the Rev. Mr. Eaton had set out Tolman of Chicago; His topic will be systematically to bring down the "The Open Doors." February, 1895.

Any day of the twenty-eight comprising this month, will probably be cold enough to make the heaviest garments a necessity, and to the women what is more essential than a warm, comfortable cloak. We find our stock is yet much too heavy, and to effect a clearance we will make during February a still greater effort than we made in January. Then as you all know, we advertised and sold hundreds of cloaks at half price. Now we will go one tetter and in addition to selling every garment at half price we will give a muff free with every purchase. Think it over and act at ARCHIE REID & Co.

SICK MAN CARRIED FROM A FIREY HOUSE

at Clinton and as the Town Ifae No. Fire Degartment Both Were Totale ly Destroyed-Some Contents Ware Saved.

Clinton people exerted a siele man out of a burning house Sunday night, the fire being the second one that raged in that town on that day. In both cases the loss was total as the town has no tre department and nothing could be done. The first house was owned by Mrs. Radway. The fames were first discovered while the people were at church. Volunteers were soon on hand but as the fire was already well started, nothing could be done to get out the things and let the building, which was an old timer and fortunately insured for its value, burn. The fire was thought to have started from an imperfect chimney. As there was little wind no adjacent property was destroyed. Mr. Fessenden and Mr. Meheffery, who lived in the house lost quite heavily, as some of the contents could not be gotten out.

The second fire occurred at 6 o'clock in the evening. Jacob Miller, who resided in the house, was sick in bed and his family were sitting around a cheerful fire, little dreaming that the roof of their residence was in fismes. As there were no extinguishers, ladders, pails or water there, all that could be done was to hasten everything out of the house and let it burn. it has been taken up. It will consist It is understood that Miller had \$500 insurance on the property. Quite an agitation has been started siece the fire in favor of buying apparatus, as the Clintonites didn't enjoy standing about in the snow and watching their houses burn.
